

Little General

A PDI Case Study

Executive Overview

HQ: Beckley, WV
 Industry: Convenience Retail
 Size: 122 Stores
 Solution: PDI Enterprise

Business Challenges

- Cumbersome import and export functionality
- Limited data visibility
- Inadequate inventory management capabilities
- Inefficient ordering tools
- Lack of item inventory

A collaborative customer and partner community to help your business thrive

Automation that improves accuracy, reduces shrink and eliminates manual processes

Customer Results

Able to import fuel prices, invoices, EFTs and credit cards daily

Real-time information, better reporting, and improved data visibility

Reduced over- and under-stock occurrences with better inventory management

Automated processes, including ordering, which reduced manual labor and errors

We now have a system that allows us to continually improve the operation of our company and continually grow our business.
