Faster, Better Data

PDI Data Capture

Get the critical data you need to make the best decisions for your business

Accurate, timely data is the cornerstone of your business. Our cloud-based solution makes sure your operations run smoothly and seamlessly. From automatic tank gauge (ATG) readings to point of sale (POS) transaction data, PDI Data Capture ensures you have the data you need when you need it. Manage inventory better to reduce your risk of runouts and retains. Reconcile faster by getting transaction and tank data automatically.

Get Real-Time Visibility

Access Timely, Accurate Data

Avoid Runouts and Retains

Reconcile Faster

Future-proof data collection solution provides real-time visibility and superior performance

PDI TECHNOLOGIES

Improve business efficiency with cloud-based, automated ATG and POS data capture

Simplify tank data and consignment management

❯ Access data through your own network, managed network providers, or from behind firewalls.

❯ Eliminate excess hardware and reduce cost with a single cloud polling instance.

❯ Leverage technical service monitoring capabilities to speed up troubleshooting.

❯ Minimize the risk of runouts and retains with a clearer understanding of what is in the ground.

❯ Easily match booked sales to inventory for faster, more accurate reconciliation.

❯ Help carriers better manage inventory by providing them with timely tank data.

❯ Decrease order-to-cash cycles by reducing faxes, emails, phone calls, and errors.
