

FastBreak Convenience Stores

Executive Overview

Industry: Convenience Retail
Size: 30 Stores
Solution: PDI Envoy

PDI Envoy helped FastBreak improve its gross profit by standardizing costs and retail prices

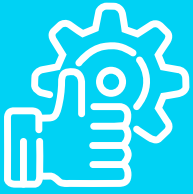

Solution Overview

PDI Envoy was designed specifically with convenience retailers in mind and works with leading domestic and international POS and financial platforms. It provides head office control of the entire business while automating the daily books and store-level operations.

Business Challenges

- Stores were largely operating as individual locations
- Lacked tools to accurately manage in-store inventory
- Needed a centralized pricebook
- Everyday operations slowed down by manual processes

PDI's industry experts helped FastBreak create customized best practices

Customer Results

Unified ERP solution enabled head office control of multi-store operation

Item-level inventory improved inventory accuracy and decreased waste

Centralized pricebook streamlined price changes to the stores

Reduced manual processes and increased data accuracy and insights

This is a great product for c-store chains. It has great tools to manage inventory as well as centralized tracking and data management to improve your business.
