PDI Retail Task Management with JOLT

Designed to improve task completion

You can check that tasks have been completed – anytime, anywhere. Create accountability by requiring employees to upload media content, or engage with a QR code in order to mark a task as done. Automate your workflows with notifications and corrective actions for overdue, out of range, and incomplete tasks. Build consistency with standard lists that can be used across all stores, and drill into performance to ensure consistency across your enterprise.

Features and benefits at a glance:

- > Convert your current paper checklists or spreadsheets into smart, digital lists in minutes
- > Automate task assignment, corrective actions, and text and email notifications for overdue, out of range, and incomplete tasks
- > View real-time reports to track critical tasks and review employee, location, and brand performance
- > Zero roadblocks. During roll-out, you can customize different locations with different setups (ie equipment, layouts, etc)

Endless Ways to use PDI Retail Task Management with JOLT:

- > Opening/Closing Checklists
- > Line Checks
- > Daily/Weekly Cleaning
- > Temperature Logs
- > HACCP/Food Safety Audits
- > Manager Walk-thrus
- > Employee Write-ups
- > Performance Reviews
- > New Hire Orientation
- > Quizzes and Tests

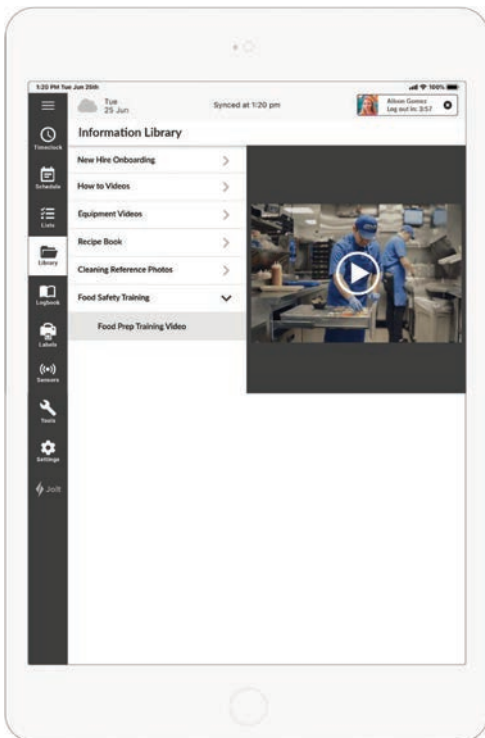

PDI Retail Information Library with JOLT

Distribute and organize information

Provide employee training and store content in one central hub. Master organization so you never have to worry about scrambling to locate a paper document. Eliminate document shipping costs and variables by sharing all content with all your locations simultaneously. Updating information is now as simple as dragging a file. Lower your training time and costs by enabling self-learning. Provide on the spot training to reduce employee churn.

Enable microlearning, so your employees can learn while they're doing their assigned tasks.

- > Role-based access to relevant information
- > Multiple document & video types
- > Create categories and subcategories for organization
- > Increase employee value and productivity

Instantly distribute and collect:

- > Operational guides
- > Food safety guides
- > Manuals
- > Food prep procedures
- > Recipes
- > Cleaning procedures
- > Handbooks
- > Health, vaccination and testing records
- > Food sanitation certificates
- > Microlearning content
- > And more...

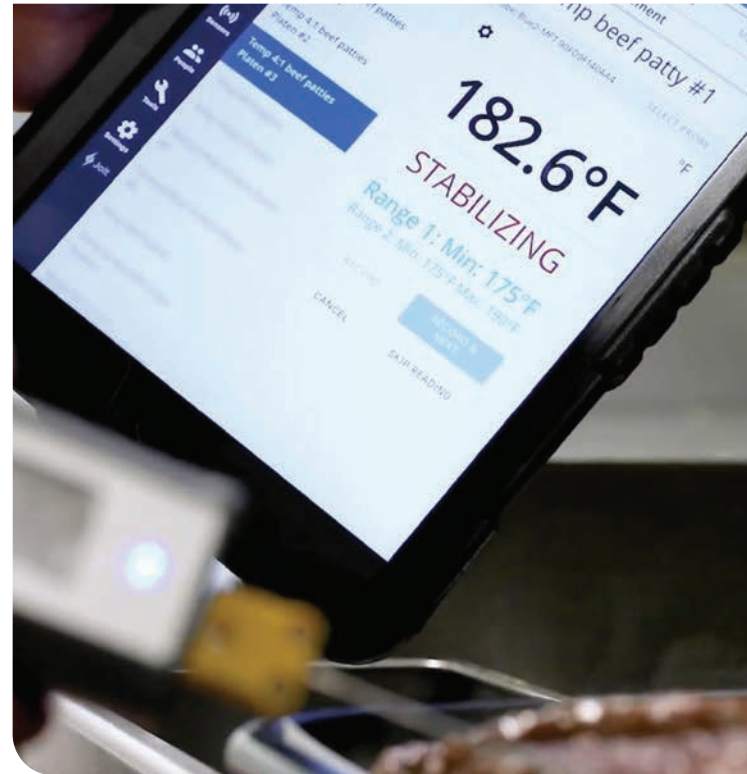

PDI Retail Temperature Sensors

A remote monitoring solution that protects inventory with alerts when temperatures fall outside of a defined range.

Never worry about losing product again. Remotely monitor the temperature of all your equipment. The moment a temperature falls outside the appropriate range, you will receive a notification. Prevent unexpected maintenance by leveraging reporting to track changes over time highlighting trends. Eliminate human error with a single button that records all sensor data into a list. Gain immediate visibility to see if anything is out of range, trigger corrective actions, and automate data collection to pass audits and inspections.

Protect your business' most costly assets- your inventory and your reputation

- > Get notified instantly
- > Track equipment health
- > Reduce labor costs
- > Experience hassle free audits

Use Sensors to Monitor

- > Walk-in Fridges/Freezers
- > Bread Proofer Temp/Humidity
- > Line/Prep Station Water Temps
- > Reach-in Coolers
- > and much more...

About PDI Technologies

With 40 years of industry leadership, PDI Technologies, Inc. resides at the intersection of productivity and sales growth, delivering powerful solutions that serve as the backbone of the convenience retail and petroleum wholesale ecosystem. By “Connecting Convenience” across the globe, we empower businesses to increase productivity, make informed decisions, and engage faster with their customers. From large-scale ERP and logistics operations to loyalty programs and cybersecurity, we’re simplifying the industry supply chain for whatever comes next.
