Overview

State-of-the-art, intuitive, and reliable technology at your fingertips

PDI Point of Sale (POS) is designed to support convenience, fuel, and foodservice operations on a single, modern technology platform. The solution supports a wide variety of complex transaction types and decreases employee training time while increasing customer throughput with its intuitive user interface. Improve store profitability through prompted upselling, leverage robust management tools to prevent fraud, and provide exceptional customer experiences. PDI gives you all this in one modern platform with powerful, industry-specific integrations.

Features and benefits at a glance:

- Resilient, secure, cloud-based solution
- Robust promotions and upsell prompts for driving up basket spend
- Connectivity to all types of fuel dispensers to speed up check-out and increase customer satisfaction
- Dynamic alerting (e.g., in drive-off situations) for reduced cost risk
- Real-time updates of sales, pricing, stock, staff rotation, and time and attendance
- Differential pricing, invoicing, payment terms, discounts, and point redemption for strategic customer engagement
- The PDI POS is fully integrated with the PDI Electronic Payment Server. The PDI EPS is a secure payment solution that supports multiple payment terminals and processors. Merchants can provide the same payment experience no matter the hardware used
- Ability to transfer stock among store and warehouses and track stock in transit to prevent spoilage and ensure perpetual inventory availability
- Track a transaction in detail regardless of site
- Powerful multi-lingual capabilities
- Serial tracked vouchers and gift cards issued directly from the POS for convenient revenue increase

Seamless integrations and flexible APIs:

- Payment terminals: indoor/outdoor
- Forecourt controllers
- Fuel dispensers
- Automatic Tank Gauges (ATG)
- Security systems
- Digital signage
- E-commerce
- Handheld site assistants
- Cash management systems
- Other IoT devices

Why PDI Point of Sale (POS)?

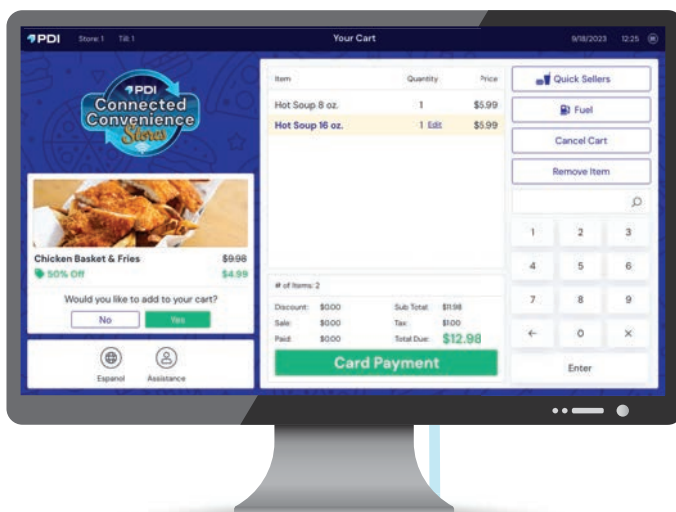

Designed for retail fuel and convenience

Your consumers' needs are constantly evolving, creating greater demand for new, flexible technology. Keep your business operations up and running regardless of internet connection, software updates, hardware failures, or weather disruptions with full resiliency across your sites.

Rolling out a foodservice program for the first time? Tired of managing your existing foodservice offering within multiple touch-points? Simplify your foodservice operations using PDI's all-in-one platform and deliver an unforgettable customer experience along the way.

Flexibility for POS, self-checkout, foodservice kiosks, and mobile POS

Continue to scale your business with a POS that is ready to support all of your deployment dreams. Using the same software application, you can easily run all your business needs on a single or multiple hardware touch-points. Increase customer throughput with self-checkout, enable your employees to "line-bust" with a mobile tablet, or increase your foodservice order accuracy with customer kiosks.

Cloud-centric solution

Reduce your cost of ownership while streamlining your POS deployment and gain access to a single version of the truth. Completely hardware agnostic, you can pair PDI POS with your favorite industry leading hardware devices.

Key Capabilities

- Item Flexibility
- Promotion Functionality
- Fuel Management

With a resilient, secure foundation, PDI's single platform Point of Sale is ready to grow and scale at the speed of your business. Stay ahead of constantly evolving consumer preferences with a technology platform that was built for purpose.

Do you want to expand into a new retail vertical? No problem, we have an item functionality ready and waiting.

Planning a series of promotions around your store and forecourt? From multibuy to linked promotions to fuel offers, PDI POS offers an unparalleled promotion management experience. Dynamically customize the best offer for each of your customers.

Ready to expand your forecourt? PDI POS can support up to 120 fueling positions.

Item Flexibility

Using PDI Point of Sale, you now have more flexibility than ever before. Let your business take on new heights by expanding into new verticals without the stress of managing multiple POS systems. Regardless of your sales item type, unit of measure, taxes, or modifiers, PDI Point of Sale has a flexible library of item codes to accurately run your business.

Item Functionality Details:

- Multiple barcodes against a single SKU with price and description variables will allow you to track similar items while understanding more granular details (i.e. fashion items can support size, style, and color matrix on single item)

- Use different units of measure across your product offerings (i.e. packs, pounds, ounces, pints, gallons, etc.) and integrate to various scales for weight and price measurement
- Characterize your items with different tax rates or distinguish between eat-in vs take-out pricing
- Item attributes (return forbidden, enter price, enter qty/weight/volume, no discount or price overrides)
- List out recipe items, allergens, and modifiers (i.e. bread type, contains nuts, etc.) for increased transparency with your customers
- Items can be sold via barcode, item code, quick choice key or alphanumeric search so your employees can keep lines moving quickly

Promotion Functionality

Maximize consumers' basket size by offering a variety of compelling promotions and discounts. Customize your promotions to each of your sites or customer groups to maximize impact while enhancing the customer experience with a flawless check-out process. Rest assured that your offers are triggered by purchase and are logged and printed saving your team valuable time and ensuring accuracy for your customers.

Promotion Functionality Details:

- Always know the specified start and end date for all offers, promotions, campaigns and days of the week
- Support a variety of programs including but not limited to: automatic item discounts, multibuy (i.e. BOGOs, 2 for's, x for y, etc.), combinations (i.e. cheapest free, fixed price, % off etc.), linked promotions, upsells, random promotions, and supplier promotions
- Easily manage refunds at any site location regardless of original purchase site

- Reward your customers for higher levels of spend with incremental percentage discounts and fuel reward savings
- Link the same item to more than one offer to maximize its category and switch promotion stacking on or off
- Create exclusions for transaction discounts or limit the number of times a customer can use an offer
- Have an accurate record of the actual item(s) to which offer discounts have been applied
- Rest assured your pricebook remains accurate after your promotion ends with separately logged promo and regular pricing
- Keep your customers coming back by printing an offer voucher on customer receipt for use on a future visit

Fuel Management

Manage your forecourt with the same ease as your in-store sales with the flexibility of PDI Point of Sale. Regardless of the number of fueling stations, type of forecourt controller, or payment type preference, PDI POS offers the same customer experience inside and outside of the store. Cloud-centric POS architecture affords distributed forecourt connectivity and reliability.

Fuel Management Functionality Details:

- Web-based fuel management platform with built-in redundancy
- Minimize your POS investment expense knowing your POS is forecourt controller agnostic
- Grow your forecourt to match your customers needs with up to 120 addressable fueling positions
- Gain flexibility with multiple service modes, pre-pay, post-pay, attended mode, preset value/volume, pay-at-pump, and mobile pay
- Easily move pre-pay values across fueling positions
- Reward your customers for higher levels of spend with fuel reward savings

- Note tank gauge alerts, high/low product, temperature and water levels from your POS screen through a graphical tank gauge display and print of the tank capacity, volume and usage
- Locally manage a price change at the POS or across all sites via the Cloud
- Centrally distribute a scheduled price change for upcoming events or predicted demand
- Conveniently capture fuel deliveries at the POS
- Run pump testing at your fingertips

About PDI Technologies

With 40 years of industry leadership, PDI Technologies, Inc. resides at the intersection of productivity and sales growth, delivering powerful solutions that serve as the backbone of the convenience retail and petroleum wholesale ecosystem. By “Connecting Convenience” across the globe, we empower businesses to increase productivity, make informed decisions, and engage faster with their customers. From large-scale ERP and logistics operations to loyalty programs and cybersecurity, we’re simplifying the industry supply chain for whatever comes next.
