

# PDI Retail Site Management

## Redefining operational efficiency

Inefficiencies in retail business don't just waste time. They inhibit profitability and staff effectiveness. Operational efficiency takes on a new meaning with PDI Retail Site Management, a cloud-based, site-level solution that connects store operations directly to the Enterprise database. Reimagine your inventory management system as a portable platform that is always connected.

## Streamline your store processes

Using PDI Retail Site Management, your staff capture transactions at the right time for seamless and smarter store processes. Introduce time-saving automation at the store-level, to get more work done where the action is and skip the long, data-entry visits to the back office.

Optimize store operations with a fully mobile system that connects the sales floor directly to the ERP.

## Built for C-Stores, Built for the Future

PDI Retail Site Management equips your stores with technology that reduces data inaccuracies and disruptions. Combining mobility and efficiency in an intuitive, integrated touchpoint, RSM is a revolutionary step for real-time inventory control.

### Smart data entry

Redefine how your business runs with PDI Retail Site Management. Data captured on the shelf, in the expired items bin, or off the delivery truck is automatically synced to Enterprise for instant accuracy. Make stronger decisions in less time, with better data.

### Effective inventory management

Take control of your inventory while simplifying the challenges of day-to-day store operations.

- Improve inventory visibility with real-time data syncing
- Prevent order delays and human errors by automating inventory transactions
- Reduce costs by preventing overstocks with accurate inventory data
- Increase efficiency by minimizing interaction with the back office

### Elevate your c-store operations

PDI Retail Site Management unlocks other powerful capabilities to evolve your business:

- Next-Generation Lottery Tracking Tools
